Bishops' University and Mount Allison University

Working with Students to Co-Design 21st-Century Classrooms: The Online Learning & Technology Consultants (OLTC) Program

Tal Jarus, Laura Yvonne Bulk, Christina Cook, Laen Avraham Dov Hershler, Yael Mayer
University of British Columbia
Alone in the Ring: Innovation in Pedagogy, Representation, and Evaluation

Established in 2012, the D2L Innovation Award in Teaching and Learning, sponsored by D2L (Desire2Learn), celebrates and recognizes up to five post-secondary collaborative teams each year for their innovative approaches that promote student-centred teaching and learning.

"The dedication exemplified by these impressive teams is inspirational to all of those invested in teaching and learning in higher education. We are immensely proud and thankful for the innovation that continues to lead the progress of the post-secondary sector," said Denise Stockley, President of STLHE.

The 2022 D2L Innovation Award in Teaching and Learning recipients are at the forefront of innovation both within their institutions and higher education more broadly.

Recipients of the award receive up to $3,000 to offset the registration and travel costs to attend the Annual STLHE conference.

STLHE and D2L will officially welcome these incredible recipients at the Annual STLHE conference which will be hosted in Ottawa on June 7-10, 2022.
